Curriculum

PRIMARY

“A man is but the product of his thoughts what he thinks, he becomes.” – Mahatma Gandhi

Keeping in line with the philosophy of Malgudi Vidyanikethan, we have adopted XSEED which is a “Teaching Improvement System”.

XSEED follows the proven Five-Step Experiential Learning Method where concepts are taught through hands-on experimentation followed by analysis by students, questioning, application and feedback. This replaces the one-step ‘telling’ and memorization followed in many traditional classrooms. Students in XSEED classrooms, therefore grasp core concepts better, communicate fluently in English, and perform better in reasoning and application based tests.:

Five-Step Experiential Learning Method

XSEED works because it integrates detailed classroom planning with on-going teacher training. Through a step-by-step method it helps even ordinary teachers do extra-ordinary work.

[XSEED Learning Tools for Students:](#)

[Student Workbooks:](#)

Workbooks for practicing concepts and improving writing skills

Content Books

Ready reference guide for detailed explanation about the concept learnt.

Assessment:

Formative and summative assessment tests (Learn-o-meter) for students along with CCE compatible student report.

Model Teaching Videos:

A real life classroom showcasing an ideal teacher delivering concepts, for home teaching by parents.
